PERSONAL PROJECTS

MoviesBazar(Using React) – (05/2020)

This is developed using the ReactJs where the user can browse ,search movies like popular ,upcoming ,latest etc. And by clicking on the movies user can see the details of movies with their trailers and get download links also. And the details and list of movies are fetched using tmdb API .Here the link

<https://moviesbazar.netlify.app>

MoviesBazarApk(Using React_Native)- (5/2020)

This APK is build using React-Native where I have used tmdb API to fetch the details of the movies like popular, trending ,upcoming etc and I have used stackdrawer to navigate from one screen to another and here after clicking on the movies you can see the details ,watch trailer and download torrent link as well. Link-

<https://play.google.com/store/apps/details?id=com.moviesbazar.moviesbazar&hl=en>

GNews Portal (using NodeJS)

This website is developed using Nodejs with ejs template where user can login using otp verification for which I have used Twilio api and here I am fetching news using newapi.org

Link-<https://gnewsworld.herokuapp.com>

E-commerce Website (06/2019 – 07/2019)

Created an online shopping website made by using the concept of HTML, CSS, Bootstrap, mySQL, PHP. It has all the functionalities of an e-commerce website. An user can create his account , login to his account , shop items, add items to cart , Link- <https://freenew.epizy.com>
